

## 1- Product and Company Identification

#### 1.1 Product identification:

Trade name	Alumina Zetamix	
Full name	Alumina based 3D printing filament	

**1.2 Identified use:** 3d printing filament.

**1.3 Manufacturer/Supplier :** Nanoe

6 rues des frênes 91160 Ballainvilliers

France

+ 33 9 81 98 33 64

**1.4 Emergency number:** + 33 1 45 42 59 59 (24/24h)

## 2- Hazards identification

#### 2.1 Classification:

Regulation CLP EC 1272/2008: Not classified

#### 2.2 Label elements:

Labelling according to Regulation (EC) No 1272/2008 [CLP]: not applicable

#### Signal words:

P284 Wear respiratory protection equipment EUH 210 Safety data sheet available on request.

# 2.3 Other hazards:

This substance is not classified as dangerous, but it may give off fumes which may be toxic, depending on the concentration of its components, when printing is being made. It is recommended to have a ventilation system in the room.

## 3- Composition/Data on components

#### 3.1 Composition

CAS N°	EC N°	REACH N°	Substances	Classification 1272/2008	%
1344-28-1	215-691-6	01-2119529248-35-0348	Aluminium oxide	Not classified	70-90
-	-	-	Organ system	Not Classified	10-30

Version: 2

Date of publication : Previous version : None

#### 4- First aid measures

#### 4.1 Description of first aid measures :

Inhalation Remove person to fresh air and keep in a position comfortable for breathing. If breathing is irregular stopped, administer artificial respiration system doctor.	
Skin contact	No adverse effect, wash hands after use.
Ingestion	Rinse mouth with plenty of water
<b>Eye contact</b> Rinse thoroughly and thoroughly with an eyewas station or water.	

#### 4.2 Principal symptoms:

Inhaling smoke can cause irritation of the nose

#### 4.3 Indication of any immediate medical attention and special treatment needed :

Treat symptomatically

#### 5- Firefighting measures

#### 5.1 suitable extinguishing agents:

The product is compatible with all means of firefighting.

#### 5.2 special hazards arising from the substance or mixture :

No specific risk of fire or explosion.

#### **5.3** Advice for firefighters:

Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No attempt shall be taken involving any personal risk or without suitable training. Firefighters should wear proper protective equipment.

#### 6- Accidental release measures

#### 6.1 Personal precautions, protective equipment and emergency procedures:

Avoid inhaling the gases produced when printing the filament. Provide adequate ventilation.

#### **6.2 Environmental precautions:**

Avoid dispersion of spilled material and runoff and contact with soil, watercourses, drains and sewers.

Version: 2

Date of publication : Previous version : None

# **NANGE**

# Material Safety Data Sheet

#### 6.3 Methods and materials for containment and cleaning up:

Waste must be disposed of according to current regulations.

#### 6.4 Other information:

Wearing glasses and dust mask.

#### **6.5 Reference to other sections:**

See section 1 for emergency contact details

See section 8 for all information on suitable personal protective equipment

See section 13 for additional information on waste treatment.

# 7- Handling and storage

#### 7.1 Precautions for safe handling:

Avoid breathing fumes when printing. Use in a well ventilated area. Staffs are recommended to wash their hands and face before eating, drinking or smoking

## 7.2 Conditions for safe storage, including any incompatibilities:

Store in accordance with local regulation.

#### 7.3 Specific end use (s):

Apart from the uses mentioned in section 1.2, there are no other recommended uses.

#### 8- Exposure controls and personal protection

#### 8.1 Control parameters:

Component	Type	Exposition	Value
Aluminium oxide	TWA	Exposure limit value for 8 hours	10 mg/m <sup>3</sup>

It may be necessary to perform a follow-up examination of people, the atmosphere in the workplace to determine the effectiveness of ventilation or other respiratory protection.

Component	Туре	Exposition	Value
Aluminium oxide	DNEL	Short term inhalation	15 mg/m <sup>3</sup>
Aluminium oxide	DNEL	Short term oral	6,2 mg/kg

#### **8.2 Exposure control:**

Appropriate engineering controls

Handle according to good industrial hygiene and safety practices. Use of local exhaust and / or good general ventilation should be sufficient. Wash hands before each cut and at the end of the work day.

#### **Individual protection measures**

#### Personal protective equipment

## **Eye/Face protection**

Safety glasses with side-shields conforming to EN166

#### **Skin protection**

Minimize contact with the skin. When material is heated, wear gloves to protect against burns.

## **Body protection**

No special protective clothing is required.

## **Respiratory protection**

Use suitable breathing equipment (FFP2 masks)

## 9- Properties of the product

Physical of the product	Ceramic filament
Colour	White
Odour	Odourless
Oder threshold	No data available
рН	No data available
Melting point	2072°C
Boiling point	2977°C
Flash point	Not applicable
Evaporation rate	Not applicable
Theoretical density	3,97 g-cm-3
Water solubility	Insoluble

## 10- Stability and reactivity

#### 10.1 Reactivity

Stable under normal conditions of use

4

Version: 2

Date of publication : Previous version : None

# **NANOE**

# Material Safety Data Sheet

#### 10.2 Chemical stability

Stable.

## 10.3 Possibility of hazardous reactions

During printing, sanding and finishing off gases and dust may form and may cause irritation to the eyes, throat and respiratory tract.

## 10.4 Conditions to avoid

Avoid heating above the maximum recommended temperature.

## 10.5 Incompatible materials

None known

#### 10.6 Hazardous decomposition products

Under normal condition of storage and use, no hazardous decomposition products.

## 11- Toxicological information

Acute toxicity	Not toxicity
Inhalation	Irritating
Dermal	Not irritating
Skin corrosion/irritation	No significant irritation
Germ cell mutagenicity	No mutagenic effect
carcinogenic	Non carcinogenic
Reproductive toxicity	Unclassified

#### 12- Ecological information

Toxicity	Unknown
Persistence and degradability	Data not available
Bio accumulation potential	Not applicable, the substance is not classified
Mobility in soil	Not mobile. Could penetrate soil at pH <5.5 or> 8.5
Results of PBT and vPvB assessment	Not required
Other adverse effects	No known danger

# 13- Disposal considerations

#### **Waste treatment methods**

**<u>Product</u>**: Dispose of surplus and non-recyclable products at an approved disposal company.

Version: 2

Date of publication :
Previous version : None

Contaminated packaging: Throw it away as unused product.

#### 14- Transport information

DOT (US)/IMDG/IATA/ADR/RID: non-dangerous goods.

#### 15- Regulatory information

This safety datasheet complies with the requirements of Regulation (EC) No. 1907/2006.

# 15.1 <u>Safety, health and environmental regulations/legislation specific for the substance or mixture.</u>

According to the CLP regulation EC 1272/2008, the constituent substances are not classified as dangerous.

#### 15.2 Chemical safety assessment

This product contains substances which require a chemical risk assessment

#### 16- Other information

#### **Further information**

The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as guidance for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text. Nanoe shall not be held liable for any damage resulting from handling or from contact with the above product.
